

What is National Integration? How it can be achieved? — (150)

National integration is a common feeling in one among all.

It is the awareness of a common identity among the citizens of the country, this means that although we belong to different caste religion but we still stand as one.

It is the bond & togetherness between the citizens of the country.

To promote National integration, National Integration Conference was held in 1961 which laid down certain Code of Conduct to promote it.
