

Q Analyse the impact of Globalisation on Indian ~~Customs~~^{Customs} and Traditions - 2006.

Globalisation has impacted every aspect of Indian society.

On one hand globalisation has paved way to ~~mod~~ modernisation of society and on the other hand some adverse effects are being noticed as a result of amalgamation of Indian culture and Tradition with outer world.

FAMILY ⇒ Traditionally Indian society favoured Joint family setup but with influence of globalisation nuclear families are emerging, mainly in urban locations.

MARRIAGE ⇒ Traditionally Grandharva vivah was not favoured in society, but in recent times love marriages have become prevalent.

DIVORCE RATE ⇒ In Indian tradition there was no concept of divorce, but now the rate of divorce ~~is~~ has increased mainly due to lack of tolerance. It is result of westernised thoughts.

CLOTHING ⇒ Western world has greatly influenced the cloths of India. Although some cloths are comfortable but some are not ~~op~~ seen appropriate as per Indian culture.

MUSIC ⇒ Western music has in some way hampered classical music of India, which is now usually not favoured by youth.

FOOD ⇒ Indian cuisine is a balance of taste and nutrition. Indian food has been subdued by western food chains like KFC, Macdonald etc.

In Indian culture influence of various outer world traditions have been adapted from historical times which has resulted in such diverse culture.

However, globalisation of thoughts is necessary but it should not be at the cost of Indian Culture and traditions which ~~are~~ ^{have} ~~with~~ developed during ~~the~~ a long time and are our heritage.

Excellent!
