

Q. R.S. useless Stepney Tyre or the most useful supporting organ. (150)

Ans. Rajya Sabha, the upper House of Indian Parliament is:

- a) Permanent House.
- b) Represent States in Parliament.
- c) Members have Fixed Tenure.

Usually, Rajya Sabha i.e. Upper House of Indian Parliament is merely considered as Useless Stepney as

Any Tax related provisions/Bills always need Lok Sabha's approval or under Lok Sabha's Authority, Rajya Sabha just voted/Pass these like a Stepney also travels with Vehicle.

Although, as seen in Recent Decades, India is transforming in its Policies through.

- Umbrella Schemes structure for whole India.
- P.P.P. models.
- G.S.T.
- Heavy Number's of National Projects
- Increasing efforts for Integrity.

Representation of States is also required in Parliament. All India Service, employees are major co-ordinator in administration.

Thus Rajya is also now seen as Useful Support Organ for implementing Union Government's Policies and directions. [Useful Support organ because in recent Decades Same Party has majority in Both Houses majority]
