Q. "Looking at the lack of alignments, NAM can be given Entusias." Comment.

Ans.

Non-Alignment Movement (NAM) was found in 1961 to tackle the military alliances of NATO and Warsaw Pact by not aligning to it. Since then, the cold war has ended and these two military alliances do not pose a threat of military alignments.

Since there are no alignments now, NAM can be given Entusias by following measures :-

- NAM's sole purpose was to prevent cold war. Cold war is already over.
- NAM's purpose was to promote peace. It was necessary during the cold war due to two military blocs of NATO and Warsaw Pact. But, now there are no military alignments posing a threat to the international peace. So, NAM has lost its relevance here.

Q.no

But there are points where NAM can stay relevant?

→ NAM can play a significant role in preventing terrorism

→ NAM can play a game changing role in the field of climate change

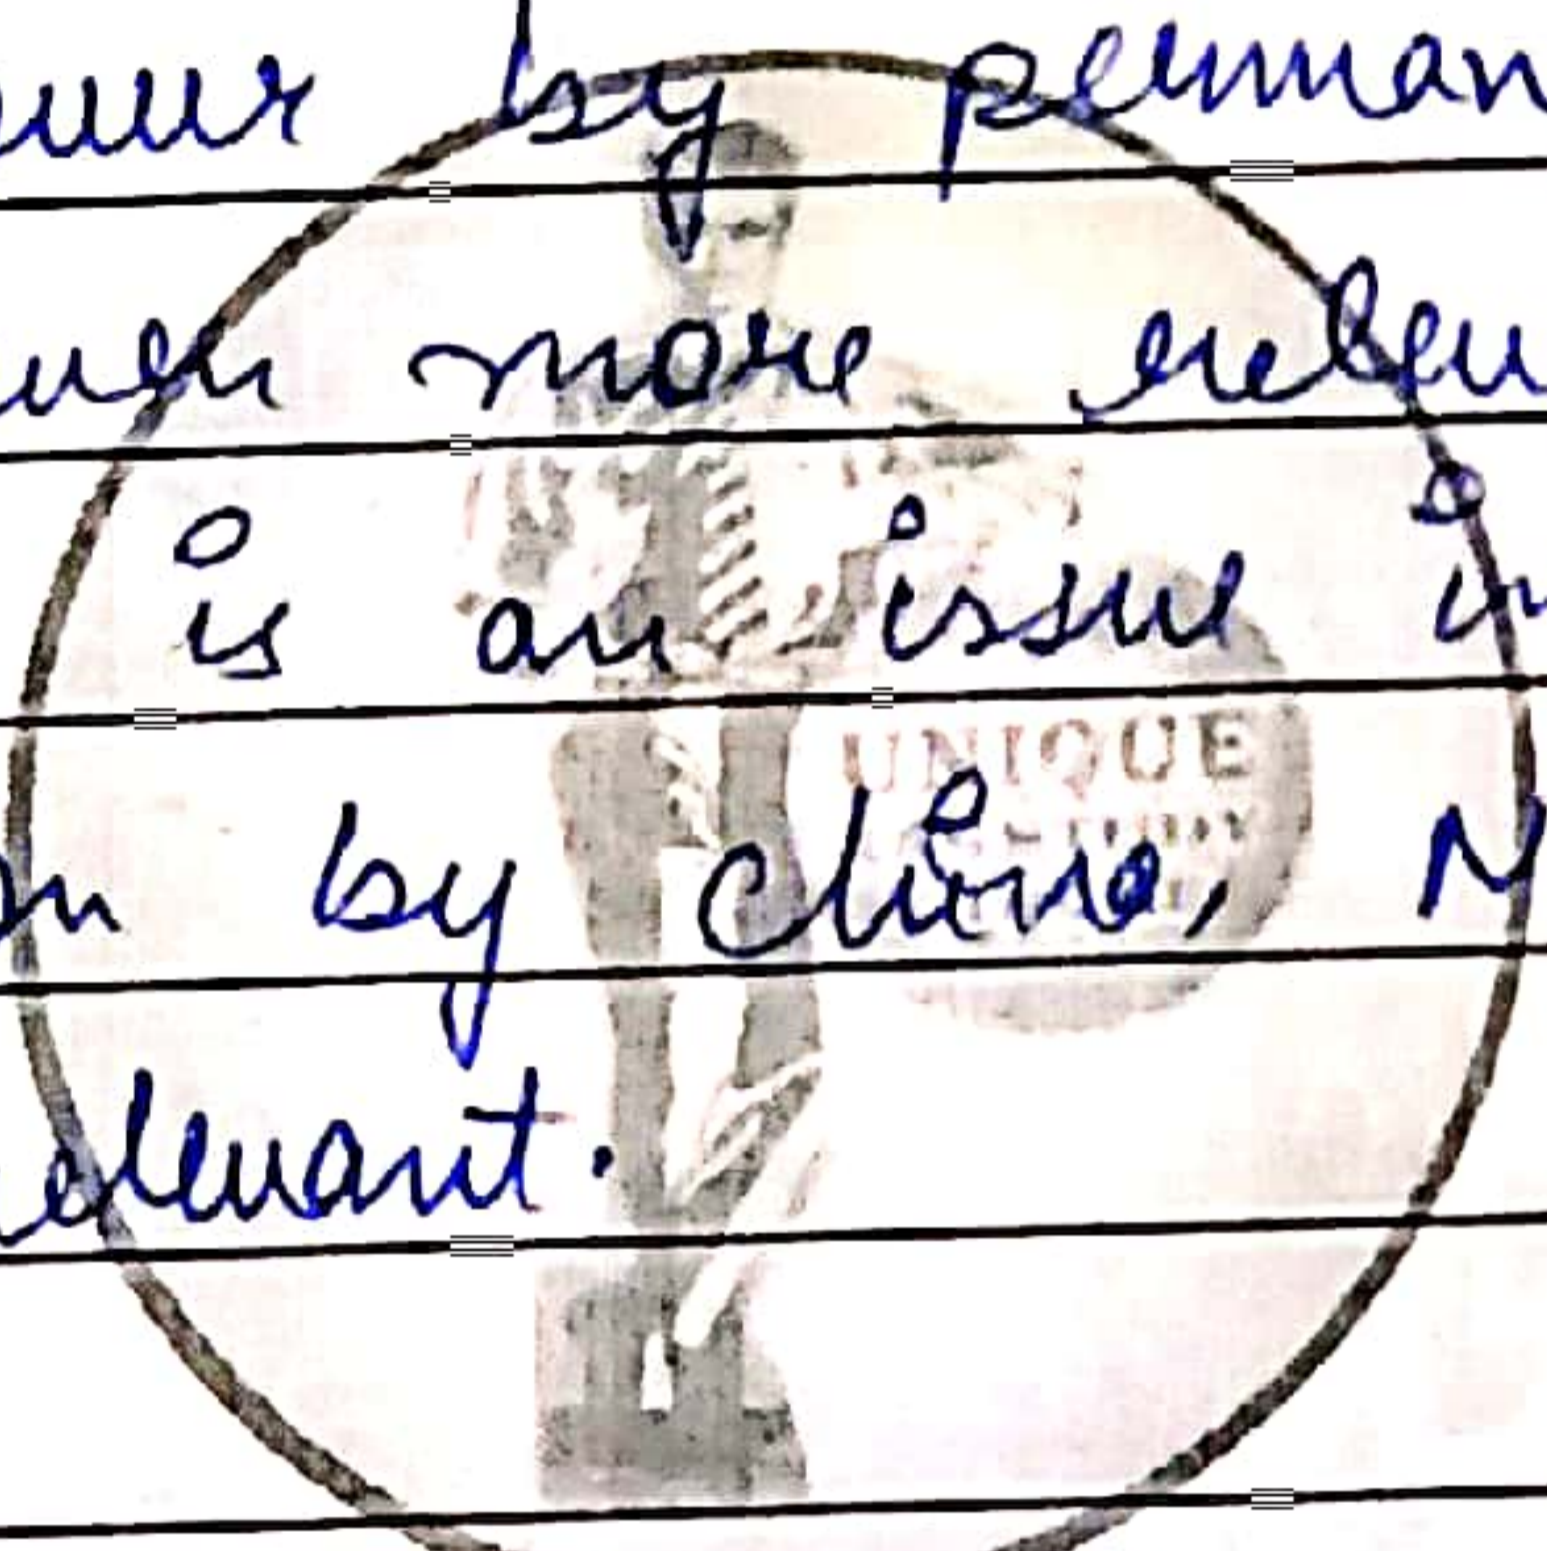

→ Since United Nations faces the problem

of veto power by permanent members, NAM is even more relevant now

→ Since there is an issue in the Indo-Pacific region by China, NAM continues

to stay relevant.

Hence, comments can be given by supporting or by being against NAM
